### **DATA-CRAFT SOLUTIONS CONTINUES TO ADD STAFF TO ACCOMMODATE STRONG GROWTH IN REPLENISHMENT SAAS SOLUTION**

**DURHAM, NC** - After nine years as a technical Remedy developer with experience and expertise in custom development of AR platform based applications, William R. Myers was just added to the staff of Datacraft Solutions, based in Durham, NC. Myers has significant experience and training in Remedy Service Management applications (ITSM Suite implementation, configuration, and customization in integrated environments). Myers is skilled in requirements analysis and application design.

Having spent a decade in the Information Technology Department of Progress Energy, Myers provided extensive PeopleSoft application support, primarily for Benefits Administration. He was also a member of the ITIL Configuration Management Leadership team, responsible for Remedy development, administration, and development initiatives for the enterprise.

Myers had also work for Kansas Power and Light Co. in Topeka, KS in the Finance Department as well as Illinois Power Company in Decatur, IL, where he was responsible for Internal Audits, Treasury and Tax. He holds a Bachelor of Science with an Accounting major from Eastern Illinois University.

According to Stephen Parker, CEO of Datacraft Solutions, "Bill Myers brings so much knowledge, experience, and expertise to our team. Our dramatic growth over the past two years required that we add developers to our staff to ensure our continued status as the leading demand driven supply chain replenishment solution. Bill understands exactly how companies will benefit from our best-practices solution and we are thrilled to have him part of the Datacraft Solutions development organization."

**Datacraft Solutions** ([www.datacraftsolutions.com](http://www.datacraftsolutions.com)) delivers a revolutionary digital kanban process of automation solutions to lean manufacturers through a secure Internet gateway, eliminating the need to install and maintain a complex IT infrastructure. The company has experienced significant growth in the past two years by eliminating complicated, expensive, time-intensive software implementations as well as extensive training regimens and the need for internal support. Datacraft Solutions' replenishment supply chain digital kanban system allows customers to access and

utilize powerful lean benefits immediately for a low, predictable monthly fee. Services are scalable so manufacturers can design an appropriate digital kanban solution.
