### **ANTONIO GREEN NAMED DATACRAFT SOLUTIONS CUSTOMER SUPPORT AND COLDFUSION DEVELOPER**

**DURHAM, NC** - According to Stephen Parker, CEO of Datacraft Solutions, "Antonio Green brings so much knowledge, experience, and expertise to our team. Our dramatic growth over the past two years required that we add developers to our staff to ensure our continued status as the leading demand driven supply chain replenishment solution. Antonio understands exactly how companies will benefit from our best-practices solution and we are thrilled to have him part of the Datacraft Solutions development organization."

Antonio Green has fifteen years experience as a software engineer specializing in Cold Fusion. Green has a Bachelors of Science in Computer Science from North Carolina State University. Green was a key contributor in the successful development, testing and deployment of a ColdFusion "point-of-sale" module for an enterprise class application supporting Hong Kong eCommerce; he was integral in the successful design, development, testing and deployment of a ColdFusion "electronic application" for an enterprise class suite supporting the US and Singapore.

Green was with Market America in Greensboro, NC as a Coldfusion Developer as well as Duke University School of Medicine in Durham, NC as a Computer Programmer responsible for participating in the design, development, implementation and support of web-based applications supporting the mission of the department and medical school.

**Datacraft Solutions** ([www.datacraftsolutions.com](http://www.datacraftsolutions.com)) delivers a revolutionary digital kanban process of automation solutions to lean manufacturers through a secure Internet gateway, eliminating the need to install and maintain a complex IT infrastructure. The company has experienced significant growth in the past two years by eliminating complicated, expensive, time-intensive software implementations as well as extensive training regimens and the need for internal support. Datacraft Solutions' replenishment supply chain digital kanban system allows customers to access and utilize powerful lean benefits immediately for a low, predictable monthly fee. Services are scalable so manufacturers can design an appropriate digital kanban solution.
